

'CAN'T COMMUNICATE?' 'HARD TO REACH?'

THINGS DON'T HAVE TO STAY THIS WAY

Intensive Interaction enables children and adults who experience difficulties interacting and the most severe social isolation to engage with others, develop positive relationships and communication abilities.

HOW I CAN HELP

- ✓ Social communication intervention for people with severe and profound learning disabilities, autism, brain injury and dementia
- ✓ Home based programmes and support for families
- ✓ Advice and guidance for carers and professionals

HENRY WITH JULIE

'Henry has been making amazing progress. Intensive Interaction has transformed him into a very happy boy.'

Sam, Henry's Mum
